

People & Things

(Continued from page one)

due received a letter from her mother, Albert, located in Chile, South America, stating that the thermometer registered four degrees below zero there the day he wrote, which was about the first of August. Meanwhile, we've down here in South Alabama are inappropriately complaining about the comparatively temperate weather. We are enjoying, with temperate season going above the century mark. On three days during this summer, thermometers in Elba have registered a maximum of 102 degrees, which is unusually high for this favored clime.

CROP DAMAGE—Cotton picking is progressing rapidly. Reports concerning storm damage continue to vary according to locality and quality of lands. However, taken as a whole, it is probably conservative to estimate that the tropical storm which raged through South Alabama on July 31 damaged the cotton crop at least 25 per cent. With the exception of a few showers, the weather has been favorable for cotton picking since the storm which has kept the damage from being still heavier. The corn crop was damaged even more seriously than cotton. The brightest rays of hope existing locally are the beautiful peanut fields which present a pretty picture indeed in the wonderful shades of the green. An unusually heavy production of goobers is in prospect and prices promise to be good.

FISH BAIT—One of the sad things about the demolition of the old brick Baptist Church building and enlargement of the new masonry bays that is being erected in its place is that it is covering up one of the choicest fish bait spots in the whole county. During all these years there has been a 15-foot space between the old church building and The Clipper office, a space where the sun's rays seldom ever penetrated. The moist, rich earth was literally alive with big, juicy worms, and if all the worms that have been extracted from that well-stocked worm bed could be collected together, they probably would fill a good-sized building. Upon mature thought, the covering up of this fisherman's bonanza, in the minds of many of our disciples of Francis Walton, is a little short of a calamity.

TOWNSENDITES—The Elba Township Club will meet Saturday afternoon at 2 o'clock in the courthouse. A full attendance is desired, as business of importance must be disposed of.

FINE SING—The monthly session of the Elba High School singing society was held at the courthouse Tuesday night, with a large attendance and a fine program. Committees all over the county were well represented. Features of the program were solo by a little daughter of Mr. and Mrs. Holley Bortwell, Troy, route 2; quartet composed of J. O. McKinnon, Mr. and Mrs. E. S. Richmond and Graydon Stanley, and the Chapman quartet. A more complete account of this fine sing will be published in The Clipper next week.

YOUNG PREACHER—Rev. H. T. Grayson, of Atlanta, cousin of Rev. W. J. Hughes, occupies the pulpit at the Elba Methodist Church Sunday morning and evening. During the pastorate absence, Rev. Hughes is conducting a comparatively temperate weather. We are enjoying, with temperate season going above the century mark. On three days during this summer, thermometers in Elba have registered a maximum of 102 degrees, which is unusually high for this favored clime.

MULE BAIN—The old brick Baptist Church building has been razed and new walls are taking shape for a large mule barn, to be operated by Messrs. John Taylor and Daniel Bryan. The original plan was to lower the old wall ten feet and the new wall to be over them, but when a large section of the old wall collapsed, having a negro worker, it was decided to tear the old wall away and build from the ground up. It was also decided to enlarge the size of the building, extending it to the south of the old structure, making the new building 80x60 feet, covering the entire lot. It is expected that the building will be completed and ready for occupancy about September 15.

FISH BAIT—One of the sad things about the demolition of the old brick Baptist Church building and enlargement of the new masonry bays that is being erected in its place is that it is covering up one of the choicest fish bait spots in the whole county. During all these years there has been a 15-foot space between the old church building and The Clipper office, a space where the sun's rays seldom ever penetrated. The moist, rich earth was literally alive with big, juicy worms, and if all the worms that have been extracted from that well-stocked worm bed could be collected together, they probably would fill a good-sized building. Upon mature thought, the covering up of this fisherman's bonanza, in the minds of many of our disciples of Francis Walton, is a little short of a calamity.

THREE LIVES—A large tree in the northeast corner of the courthouse yard, which was uprooted during the storm of July 31st, and which was replanted a few days thereafter, shows signs of surviving the ordeal. The season for planting trees was entirely out of the usual order of procedure, but there were a few roots left clinging to Mother Earth, which probably have done much to overcome the effects of the intense heat from the sun. The rays that have beat down upon it a good portion of the time. Liberal applications of water from the fire hose have helped materially, and indications are that the grand old tree will live and once more become a popular gathering place for religious and other assemblies. It just seems like Walter Whitman's and Will Green Young have their staves leveled in the wrong places to be visible from this natural assembling point. Those stately trees on the east side of the courthouse are greatly appreciated, but it will be difficult to educate the people to congratulate on that side of the yard.

GINNING—Dozier Bryan is authorized for the statement that cotton ginning at the Elba gin is several hundred bales short of the number that had been ginned at this date last year. Several reasons are given. One is that cotton was considerably later this year than last, and then the weather has been unfavorable, on account of the showers the latter part of last week and the first of this. Storm damage, causing many bolls to open prematurely, is causing a shrinkage in the "turn-out." Good cotton should at least "eat itself," according to reports from gin all through this section, a good deal of the seed cotton is not doing that well this year.

IN DEMAND—Cotton pickers are in great demand. Cotton is opening so rapidly that it is a hard matter to get sufficient pickers to keep up with the fast-picking bolls. The price for picking started off at 50c per hundred, but the increased demand has created a scarcity of pickers and is reported that the price has increased to 90c.

TO THE TOP—Madame Strain left Wednesday for Chicago, after a ten-day visit with her parents, Mr. and Mrs. Almon Strain. After the closing up of this fishermen's bonanza, in the minds of many of our disciples of Francis Walton, is a little short of a calamity.

ORPHANAGE PROGRAMS—Next Sunday is one of the four fifth Sundays that occur in a single month each year. It is customary in the Methodist Sunday Schools of Alabama to give these fifth Sunday collections to the Methodist Orphanage at Selma. The fifth will be observed at Ham schoolhouse at 10:00 a.m. and at Liberty Methodist Church Sunday afternoon. Appropriate programs will be rendered at both places, the Elba Business Men's Evangelistic Club members to be in charge of both services. The public is cordially invited.

NEW PORCH—A new porch in front of the Martin store on the north side of Court Square will add to the attractiveness of that part of the business section.

PAVING—The first application of oil has been poured on the four and a fraction miles of the Elba-Birmingham highway. The required shipment of asphalt is expected to arrive any day. When it is put down it will be a decided relief to those people who live along the highway and others who have been having to detour for several weeks. It is reported that work is progressing on the Crawfish creek of the paving project and it will not be long until we will have a paved highway at least from the way to Laverne. In the meantime, we are patiently waiting to hear some news concerning the long-promised paving of that worrisome 13-mile gap in the Elba-Troy highway.

DIFFERENCE—The difference between a drunken driver and a rattlesnake is that the latter rattles his tail before striking, while the drunken driver rattles his head before he strikes you.

A MODEL—Coffee County is being used as a model for a number of State and National projects. Deputy Probate Judge T. D. Kendrick announces that as a result of a conference with State Comptroller Lee, it is Mr. Lee's intention to send an accountant to Coffee County some time in September for the purpose of working out an accounting system that will fit all the counties of the State. It seems that Mr. Lee was so favorably impressed with the eye-verbally that has been used by Mr. Kendrick that he wishes to use Coffee County as a model, realizing that an agricultural county like Coffee comes nearest representing the State's average than almost any other. Mr. Kendrick says he realizes it will mean a lot of extra work for him, as there will be a lot of "high notes" to iron out, as a system that would fit the Alabama Power Company would be all out of place. Kendrick is now in Fulton Clark's service station, or even Ed Fulton's place of business. It is a remarkable fact that Coffee County is being singled out as a model for a number of far-reaching projects, and we should make capital out of it.

Dr. and Mrs. Gap Rushing of Durant, Oklahoma, Mrs. James T. Graston and sons, Billy and Jimmy, of Lake Charles, La., are visiting the Messrs. Harper and other relatives in Elba.

Mr. and Mrs. E. S. Richmond and Graydon Stanley, and the Chapman quartet. A more complete account of this fine sing will be published in The Clipper next week.

YOUNG PREACHER—Rev. H. T. Grayson, of Atlanta, cousin of Rev. W. J. Hughes, occupies the pulpit at the Elba Methodist Church Sunday morning and evening. During the pastorate absence, Rev. Hughes is conducting a comparatively temperate weather. We are enjoying, with temperate season going above the century mark. On three days during this summer, thermometers in Elba have registered a maximum of 102 degrees, which is unusually high for this favored clime.

MULE BAIN—The old brick Baptist Church building has been razed and new walls are taking shape for a large mule barn, to be operated by Messrs. John Taylor and Daniel Bryan. The original plan was to lower the old wall ten feet and the new wall to be over them, but when a large section of the old wall collapsed, having a negro worker, it was decided to tear the old wall away and build from the ground up. It was also decided to enlarge the size of the building, extending it to the south of the old structure, making the new building 80x60 feet, covering the entire lot. It is expected that the building will be completed and ready for occupancy about September 15.

FISH BAIT—One of the sad things about the demolition of the old brick Baptist Church building and enlargement of the new masonry bays that is being erected in its place is that it is covering up one of the choicest fish bait spots in the whole county. During all these years there has been a 15-foot space between the old church building and The Clipper office, a space where the sun's rays seldom ever penetrated. THE ELBA CLIPPER

LOOK AHEAD
BE
Modern

YOUR NEXT COOK-STOVE SHOULD BE
A modern ELECTRIC RANGE

Let's thank electricity for a new and better standard of living... swift transportation... labor-saving machinery... better light... and an easier, far better method of cooking. What does a home gain by having other modern conveniences and plodding along with archaic methods of cooking? Hotpoint, the automatic Electric Range, provides the modern way to cook. It brings a new freedom to women... new convenience... new cleanliness... a new order of life. Soon electricity will take the place of old-fashioned methods of cooking just as it has in lighting, washing, sweeping, etc. Be modern. Let your next cook stove be an electric range. Come in now. Learn all the startling facts about this modern method of cookery. See the beautiful new models at our store without delay.

Health Notes

—By Your—
COUNTY HEALTH OFFICER

MAKING USE OF THE PUBLIC HEALTH SERVICE

In order that the fullest benefit may be realized from the services offered by your County Health Unit to the people of Coffee County, it may be well worth while to review some of the things which the County Health Unit is willing and anxious to do for the people.

1. Teach the facts and dangers of "soot pollution" and how typhoid fever and other intestinal diseases can be prevented and hookworm entirely eradicated by the proper disposal of the body waste.

2. How to secure an abundant and uncontaminated supply of drinking water such as will not contain the danger of intestinal diseases.

3. Free vaccination by a health officer or nurse at the county school or crossroads store for all who wish to be inoculated against typhoid fever.

4. Make it possible for every citizen to secure through the State laboratory vaccine for vaccination against small pox and hydrophobia, or to obtain treatment for the prevention and cure of diphtheria, hookworm treatments, and control of malaria patients to prevent mosquitoes from spreading the disease to other persons.

5. Use every effort to control the spread of communicable diseases, such as tuberculosis, scarlet fever, measles, whooping cough, infantile paralysis and typhoid fever.

6. Bring malaria under control by the drainage of all pools with tin mirrors or by giving small bodies of stagnant water a surface coat of oil. Also by supervising screening of dwellings and instructing in the care of malaria patients to prevent mosquitoes from spreading the disease to other persons.

7. Teach how to prevent diseases of all kinds to which our people are most subject. Not only to live in order to have the strongest and most efficient body possible.

8. Especially does the health service teach how babies and young children should be fed and cared for in order to protect their lives and insure their growth and health. The health nurse spends most of her time in advising expectant mothers so that they will be prepared for the ordeal of child birth with less risk and danger.

9. Not all this care and trouble is taken for us as a community to each of us? If our State and county are willing to spend money to protect mothers so that they will be prepared for the ordeal of child birth with less risk and danger, it is not all welling to do our part?

Avail yourselves of the services of your County Health Unit and do everything in your power to promote not only your own health but that of the community. Observe the rules of Community Health and make sure that we ourselves never do anything to endanger the health of another person.

Mr. J. C. Simmons of Brooklyn, N. Y., and Mr. R. P. Simmons of Memphis, Tenn., who have been guests of Mrs. R. C. Bryan for several days, left Tuesday for their homes.

Mr. C. P. Hayes was a visitor to Montgomery last Wednesday.

FARMERS ARE ADVISED TO USE TESTED INOCULANTS

AUBURN, Ala., (AP)—Experience shows that it is as advisable to inoculate soil and commercial cultures in inoculating hairy vetch, Austrian winter peas, and crimson clover, advises J. C. Lowery, extension agronomist.

By the two methods in combination inoculation is more certain.

It is very important, however, in buying commercial cultures that material be used which has demonstrated its effectiveness in inoculating the winter legume under field conditions.

"Farmers in several sections of Alabama have suffered heavy losses due to use of commercial inoculation material of uncertain quality. One community in East Alabama lost in cost of seed, inoculation, and expected increased crop yields more than \$60,000 through use of inoculating material of uncertain quality."

Heavy losses were sustained by Dallas, Perry, Franklin, Cullman and other counties the same season, due to inferior commercial inoculation.

Miss Claudine Bryan has returned from a visit to relatives in Columbia, Tenn., this week.

Mrs. Mary Stone, who has been the guest of Mrs. R. S. Boyd and Mrs. F. H. Murphree, returned to her home in Whigham, Ga., Wednesday.

Boyd Murphree is the guest of relatives in Atlanta this week.

Mrs. M. L. Hartley and children and Miss Madge Page returned to their home in New Orleans, La., Sunday after a visit to relatives.

Messrs. Foy, W. M. L. L., and M. B. English, also Tommie Johnson of Evergreen, left last week for Dallas to attend the Texas Centennial. While away they will visit other points in Texas.

Fresh Market, 7 1/2c per lb., and Salt Fish, 10c per lb., at Stephens' Market, next door to Cafe.

Mrs. T. J. Crooks and son, T. J. Jr., will arrive today from Mount Crawford, Virginia, to be the guests of Mr. and Mrs. Bill Headley.

Dr. B. C. Glenn, presiding elder of Troy District, called at The Clipper office Wednesday afternoon. He announced that he would preach at the Elba Methodist church the first of September in September and conduct a quarterly conference that afternoon.

Mr. and Mrs. Clifford Cook have as guests Mr. and Mrs. Henry Holland and children of Thomasville, Georgia.

Mrs. Ada Shealy, who has been the guest of Mr. and Mrs. Henry Holland on Rushing Street, is much improved.

Among those who enjoyed a picnic given at the pool Tuesday night in honor of Mr. and Mrs. Henry Payne of Washington, D. C., were Mrs. D. J. Lubert, Mrs. Dan Prescott, Mrs. Wiley Blair, Mrs. Frank Blair, Mrs. Jeanie Payne of Opp, McDonald Payne, Osburn, Janette and Betty Jo Lubert and Alvin Devane.

Mrs. W. H. Coston has returned from Gadsden, where she spent several days with Dr. and Mrs. Mercer Howe.

Mr. and Mrs. Milton O'Neal and little son, Milton, Jr., of Troy were guests of Mrs. Bettie Rowe and family Sunday.

Mr. Clifford Cook, who has been ill for several days at his home on Buford Street, is slightly improved.

Best Hamburgers and Hot Dogs in town, 5c each, at Stephens' Market, next door to Cafe.

Mrs. Mollie Bell Bishop and grandson, Hugh Bishop Nix, of Washington, D. C., who have been the guests of Mrs. Elba for several weeks, expect to leave for their home Friday.

Mrs. H. C. Johnson of Montgomery is the guest of her daughter, Mrs. Hohn Michel.

Mrs. Valie Vaughan of Washington, D. C., who has been visiting relatives in Elba, will leave for her home Friday. She will be accompanied by Miss Ruth Lee, who will be the guest of Mrs. Vaughan and Mr. and Mrs. Lynwood Harper for several weeks.

Miss Alice Boyd remains critically ill at St. Margaret's hospital in Montgomery. Her numerous friends will regret to hear of her serious illness.

Mrs. C. B. McDowell visited her daughter, Miss Frances McDowell in Dothan Monday. Miss Frances is acting as surgical supervisor at Mr. McDowell's hospital during the absence of the regular supervisor, who is off on vacation.

I. N. Heath spent the week-end at Montgomery transacting business and visiting in the home of his daughter.

J. W. Wyroslick, Kinston Rt. 1, his brother-in-law, Delmar Hudson of Goodman and Shelby Hudson of Chipley, Ga., visited at the home of A. B. Wyroslick at Ellaville, Ga., a few days last week. Mr. Delmar Hudson recently suffered a stroke of paralysis and they visited President Roosevelt's Infants and Paralysis Hospital. Upon examination, Mr. Hudson's case was pronounced outside the scope of infantile paralysis, so nothing could be done for him.

Mr. and Mrs. R. C. Bryan, Messrs. J. C. and R. P. Simmons were visitors to Ozark Sunday.

Mrs. C. H. Cole of Opp is the guest of Mr. and Mrs. W. J. Hamm this week.

Mr. and Mrs. Henry Payne and son, McDonald Payne, of Washington, D. C., and their daughter, Mrs. J. C. Burgett, of Elkins, N. C., are guests of Mrs. D. J. Lubert and other relatives.

Fresh Snappers, 15c per pound; Snappers, 10c per pound; Stephens' Market, next to Cafe.

Miss Emmie Banks of Opp spent Sunday with Elba relatives.

Mr. and Mrs. R. C. Bryan, Messrs. J. C. and R. P. Simmons were visitors to Ozark Sunday.

Mrs. C. H. Cole of Opp is the guest of Mr. and Mrs. W. J. Hamm this week.

Mr. and Mrs. Henry Payne and son, McDonald Payne, of Washington, D. C., and their daughter, Mrs. J. C. Burgett, of Elkins, N. C., are guests of Mrs. D. J. Lubert and other relatives.

Fresh Snappers, 15c per pound; Snappers, 10c per pound; Stephens' Market, next to Cafe.

Miss Emmie Banks of Opp spent Sunday with Elba relatives.

Mr. and Mrs. R. C. Bryan, Messrs. J. C. and R. P. Simmons were visitors to Ozark Sunday.

Mrs. C. H. Cole of Opp is the guest of Mr. and Mrs. W. J. Hamm this week.

Mr. and Mrs. Henry Payne and son, McDonald Payne, of Washington, D. C., and their daughter, Mrs. J. C. Burgett, of Elkins, N. C., are guests of Mrs. D. J. Lubert and other relatives.

Fresh Snappers, 15c per pound; Snappers, 10c per pound; Stephens' Market, next to Cafe.

Miss Emmie Banks of Opp spent Sunday with Elba relatives.

Mr. and Mrs. R. C. Bryan, Messrs. J. C. and R. P. Simmons were visitors to Ozark Sunday.
